

**Here is the current policy for COVID at BRC.  
The club remains open and available to ALL members  
regardless of immunization status.**

- **We ask that the following happen.**
  - **Use common sense. If you are not feeling well - don't come to the club. It does not matter if you have COVID Symptoms, those associated with the flu, a common cold, a stomach virus, etc. If you are sick – stay home!**
  - 
  - **If you want to come to the club... you may wear a mask. It's not required and for your safety if you are not immunized, you may want to wear one... but it's your choice.**
  - 
  - **If you decide to wear one, be very clear that does not mean those around you must do so. If this bother's you, you may find a lane further away to shoot, come back another time, etc.**
  - 
  - **Clean up behind yourself. Just like picking up Brass you should be picking up behind yourself - spray your "stall" with sanitizer and wipe it down before you leave. Take care of your trash, etc.**
  - 
  - **Wash your hands before you leave. It's a good practice anyways to remove lead or other particulate from shooting...**
